

BG

Cashmere cross angora goat

BG, which stands for 'Black Goat', is a Cashmere cross Angora goat. BG was found as a stray near Williamstown. He was wearing a collar and ear-tags, but neither of these items noted contact details of his owner.

BG was advertised in local papers, but his owner didn't come forward. Because BG was so friendly, it was decided he should join the Education Team to assist with teaching responsible animal ownership.
