Congratulations!
On successfully completing Maggie’s Tale and Activity Book.

The Five Freedoms

FOOD AND WATER
It's important that each animal receives the right kind of food to eat everyday. Find out information from books, the Internet and the vet to help you. All animals need plenty of fresh, and clean water all the time. Just like people, animals get extra thirsty when the weather is hot.

SHELTER
Everyone needs a comfortable place to rest, away from the hot sun and cold wind. Make sure your pet has a warm and dry bed to sleep in. In summer, it's important that your pet has a shady place to rest with plenty of water.

EXERCISE
Just like people, all animals need to move around to keep healthy. Give your pet plenty of space to explore. Your pet would love a toy to play with - it would love to play with you too!

FRIENDS
Nobody wants to feel lonely. Animals like to have a suitable friend to play and rest with. Even if you can only have one animal, you can be a great friend by playing with your pet and making sure your pet is safe and happy.

VET CARE
A vet is an animal doctor who can help an animal that is sick or injured. Just like people, animals need to have a check up too - at least once a year.

---

Help free dogs like Maggie from a life in a puppy factory:

Don't buy from pet shops.
Puppy factories sell their dogs through pet shops.

Tell others about Maggie.
Tell your friends, or maybe your next school project could be on Maggie?

Buy your next puppy from an animal shelter like the RSPCA or a reputable breeder.
Visit www.closepuppyfactories.org for more information or speak to your local RSPCA.
You can help us change that.

Places for dogs are not very nice.

Puppy factories are not the five freedoms.

They don't have all the five freedoms.

Some live in puppy factories where not all puppies have a happy life.

Puppy factories

HINT: Fill Magic's bowl.

What does Magic always need?

ACTIVITY 6 - Draw the answer.
Meet Maggie

Maggie’s life started in a puppy factory. She lived in a small cage all day and all night. She was never patted and wasn’t allowed to play with other dogs. She became very sad and unwell.

RSPCA Inspectors rescued Maggie and she was cared for by our vets. She is now a very healthy and happy dog!
ACTIVITY 5 - Dot to Dot.
To start the fun, join the dots to find out what Maggie loves to do with her owner every day.

ACTIVITY 1 - Fill in the gaps.

a) She lived in a ______ all day and all night.
b) She was ______ and wasn't allowed to ______.
c) She became very ______ and unwell.
d) Maggie's life started in a ______.
Maggie was sad because...

She didn’t get to exercise or play in a garden. She didn’t have fresh water and food. She didn’t have a comfortable bed to sleep on. Her owners didn’t take her for walks or to the vet.

ACTIVITY 4 - Fill in the gaps.

a) She gets to _______ and play with her four-legged friends.

b) She has a _____ ____ , which she loves to sleep on.

c) She always has _______ ______ and _______.

d) Her owner gives her lots of love, attention and regular _______.
Maggie is very happy now because...

She gets to exercise and play with her four-legged friends. Her owner gives her lots of love, attention and regular walks. She has a cozy bed, which she loves to sleep on. She always has fresh food and water.

ACTIVITY 2 - Fill in the gaps.

a) Her owners didn't take her for __________ or to the __________.

b) She didn't have __________ and __________ or __________.

c) She didn't get to __________ and __________ or __________.

d) She didn't have a __________.
ACTIVITY 3 - Draw a picture of a very healthy, happy pet.

HINT: Do you remember the Five Freedoms? Does your pet have everything it needs?
