

ARCHIE, PINGU & HUMBUG

from left to right: Archie, Pingu and Humbug, Domestic cats

Pingu, and Humbug are sisters who came to the RSPCA in 2005. They arrived as tiny kittens, too small for adoption. They were fostered by RSPCA staff until they were old enough to return to the shelter to be de-sexed.

Archie arrived at the RSPCA in 2008 as a stray cat from Altona. He had no identification and no one came forward to claim him. His outgoing and curious personality has been a wonderful addition to the barn cat family.

All three cats were chosen to be part of the Education Team because they are friendly, sociable and enjoy being handled. The catpark keeps the cats safe and also protects the wildlife from the cats.
